

## Engine Mounting Bolt Kits

### Stainless Steel Mounting Bolt Kit

Dacro coated for added corrosion protection. 10 mm x 1.25 p metric thread. 4 inches long with 2 inch thread length.

|                                   |               |
|-----------------------------------|---------------|
| <b>BF8D~BF20D, BF25/30</b>        |               |
| Stainless Steel Mounting Bolt Kit | 06413-ZV7-000 |

### Stainless Steel Mounting Bolt Kit

Measures 6" long with threads that are 3" long by 12 mm with a 1.25 pitch. Two to a package. Can be used with standard 12 mm mounting bolt nuts.

|                                   |                 |

| Stainless Steel Mounting Bolt Kit | 90129-ZZ3-010AH |
|-----------------------------------|-----------------|

### Stainless Steel Mounting Bolts (4)

1/2 x 13 UNC American thread. 4 inches long with 2 inch thread length.

|                                    |                 |
|------------------------------------|-----------------|
| Stainless Steel Mounting Bolts (4) | 06413-ZV5-004AH |
|------------------------------------|-----------------|

### Stainless Steel Mounting Bolt Kit

1/2 x 13 UNC American thread. 3 1/2 inches long with 1 1/2 inch thread length.

|                               |                 |
|-------------------------------|-----------------|
| Stainless Steel Mounting Bolt | 06413-ZV5-810AH |
|-------------------------------|-----------------|

### Stainless Steel Mounting Bolt Kit

Use of naval bronze nuts makes disassembly easier. Will not corrode or seize to bolt. 1/2 x 13 UNC American thread. 4 inches long with 2-inch thread length.

|                                   |                 |

## **Engine Mounting Bolt Kits**

### **Stainless Steel Mounting Bolt Kit**

1/2 x 13 UNC American thread. 4-5/8 inches long with 2-5/8 inch thread length.

|                                   |                 |
|-----------------------------------|-----------------|
| Stainless Steel Mounting Bolt Kit | 06413-ZY3-910AH |
|-----------------------------------|-----------------|

### **Naval Bronze Nuts (4)**

1/2 x 13 UNC American thread.

|                       |                 |
|-----------------------|-----------------|
| Naval Bronze Nuts (4) | 06413-ZV5-000AH |
|-----------------------|-----------------|

## Sacrificial Anode Metals

### External Anode Metal

Mounts on anti-ventilation plate. Sacrificial anode metal protects the engine from corrosion.

|                      |               |
|----------------------|---------------|
| <b>BF2-BF15A</b>     |               |
| External Anode Metal | 41106-935-812 |

### Internal Anode Metal

Two required.

|                      |               |
|----------------------|---------------|
| <b>BF250A</b>        |               |
| Internal Anode Metal | 12155-ZY3-000 |

### Trim Tab Kit

Sacrificial anode metal protects the engine from corrosion.

|                  |               |
|------------------|---------------|
| <b>BF25-BF50</b> |               |
| Trim Tab Kit     | 06412-ZV5-000 |

### External Anode Metal

Mounts on each side of extension case. Two required for each engine. Sacrificial anode metal protects the engine from corrosion.

|                                   |               |
|-----------------------------------|---------------|
| <b>BF8D, BF9.9D, BF15D, BF20D</b> |               |
| External Anode Metal              | 41106-ZW9-000 |

### Internal Anode Metal

Internal sacrificial anode metal protects the engine from corrosion.

|   |               |
|---|---------------|
| <b>BF9.9A, BF15A, BF8D, BF9.9D, BF15D, BF20D, BF250A (six required)</b> |               |
| Internal Anode Metal  | 12155-ZV4-A00 |

### Stern Bracket Anode Kit

Mounts on bottom of stern bracket. Sacrificial anode metal protects the engine from corrosion.

|                         |               |
|-------------------------|---------------|
| <b>BF35-BF50</b>        |               |
| Stern Bracket Anode Kit | 06411-ZV5-020 |

# HARDWARE

## Sacrificial Anode Metals

### Internal Anode Metal

Two each per engine. Located inside the water passages on both intake and exhaust side. Sacrificial anode metal protects the engine from corrosion.

| BF35A~BF225          |               |
|----------------------|---------------|
| Internal Anode Metal | 12155-ZV5-000 |

### External Anode Metal

Mounts on each side of extension case. Two required for each engine. Sacrificial anode metal protects the engine from corrosion.

| BF25A, BF75AX~BF250A |               |
|----------------------|---------------|
| External Anode Metal | 41109-ZW1-B00 |

### Stern Bracket Anode Kit

Mounts on bottom of stern bracket. Sacrificial anode metal protects the engine from corrosion.

| BF75A~BF250A            |               |
|-------------------------|---------------|
| Stern Bracket Anode Kit | 06411-ZW1-020 |

### External Anode Metal

Mounts on each side of extension case. Two required for each engine. Sacrificial anode metal protects the engine from corrosion.

| BF75~BF90 AW, AT     |               |
|----------------------|---------------|
| External Anode Metal | 41109-ZW1-003 |
