A crack may develop in this area.

What is the problem?

Due to an error in manufacturing, a crack may develop in the inner radius of the emergency stop switch clip. If the crack goes unnoticed, the clip could fall off during operation, causing the engine to shut off unexpectedly.

All clips provided with the affected engines are included in this recall.

What should you do?

Contact your Honda Marine servicing dealer for a replacement emergency stop switch clip. If you need assistance locating a servicing dealer, please visit our website: www.honda-marine.com, or contact us at (888) 888-3139.
