

Engine Mounting Bolt Kits

Stainless Steel Mounting Bolt Kit

Dacro coated for added corrosion protection. 10 mm x 1.25 p metric thread. 4 inches long with 2 inch thread length.

BF8D ~ BF20D, BF25/30	
Stainless Steel Mounting Bolt Kit	06413-ZV7-000

Stainless Steel Mounting Bolt Kit

Measures 6" long with threads that are 3" long by 12 mm with a 1.25 pitch. Two to a package. Can be used with standard 12 mm mounting bolt nuts.

Stainless Steel Mounting Bolt Kit	90129-ZZ3-010AH
-----------------------------------	-----------------

Stainless Steel Mounting Bolts (4)

1/2 x 13 UNC American thread. 4 inches long with 2 inch thread length.

Stainless Steel Mounting Bolts (4)	06413-ZV5-004AH
------------------------------------	-----------------

Stainless Steel Mounting Bolt Kit

Use of naval bronze nuts makes disassembly easier. Will not corrode or seize to bolt. 1/2 x 13 UNC American thread. 4 inches long with 2-inch thread length.

Stainless Steel Mounting Bolt Kit	06413-ZV5-042AH
-----------------------------------	-----------------

Stainless Steel Mounting Bolt Kit

1/2 x 13 UNC American thread. 4-5/8 inches long with 2-5/8 inch thread length.

Stainless Steel Mounting Bolt Kit	06413-ZY3-910AH
-----------------------------------	-----------------

Naval Bronze Nuts (4)

1/2 x 13 UNC American thread.

Naval Bronze Nuts (4)	06413-ZV5-000AH

HARDWARE

Sacrificial Anode Metals

External Anode Metal

Mounts on anti-ventilation plate. Sacrificial anode metal protects the engine from corrosion.

BF2 ~ BF15A	
External Anode Metal	41106-935-812

Internal Anode Metal

Two required.

BF200A ~ BF250D	
Internal Anode Metal	12155-ZY3-000

Trim Tab Kit

Sacrificial anode metal protects the engine from corrosion.

BF25 ~ BF50	
Trim Tab Kit	06412-ZV5-000

External Anode Metal

Mounts on each side of extension case. Two required for each engine. Sacrificial anode metal protects the engine from corrosion.

BF8D, BF9.9D, BF15D, BF20D	
External Anode Metal	41106-ZW9-000

Internal Anode Metal

Internal sacrificial anode metal protects the engine from corrosion.

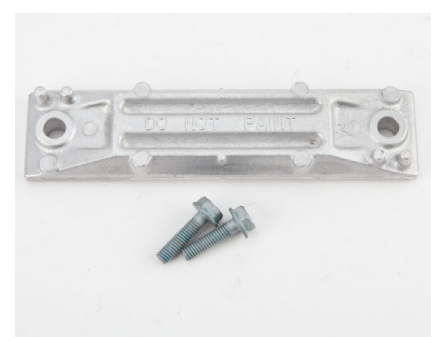

BF9.9A, BF15A, BF8D, BF9.9D, BF15D, BF20D, BF250A ~ BF250D	
Internal Anode Metal	12155-ZV4-A00

Stern Bracket Anode Kit

Mounts on bottom of stern bracket. Sacrificial anode metal protects the engine from corrosion.

BF35 ~ BF50	
Stern Bracket Anode Kit	06411-ZV5-020

Sacrificial Anode Metals

Internal Anode Metal

Two each per engine. Located inside the water passages on both intake and exhaust side. Sacrificial anode metal protects the engine from corrosion.

BF25A ~ BF250D	
Internal Anode Metal	12155-ZV5-000

External Anode Metal

Mounts on each side of extension case. Two required for each engine. Sacrificial anode metal protects the engine from corrosion.

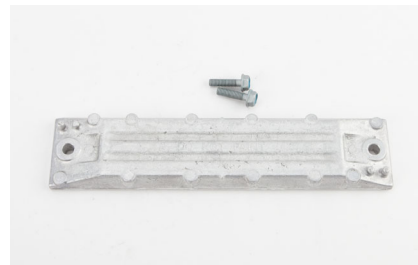

BF25A, BF75AX ~ BF250D	
External Anode Metal	41109-ZW1-B00

Stern Bracket Anode Kit

Mounts on bottom of stern bracket. Sacrificial anode metal protects the engine from corrosion.

BF75A ~ BF250D	
Stern Bracket Anode Kit	06411-ZW1-020

External Anode Metal

Mounts on each side of extension case. Two required for each engine. Sacrificial anode metal protects the engine from corrosion.

BF75 ~ BF90 AW, AT	
External Anode Metal	41109-ZW1-003
