SNOW BLOWERS

Miscellaneous Kits & Parts

HS520A/AS, HS720AM Chute Guide Handle

This optional handle is shorter than the standard handle. It is designed to provide the operator with increased control of the discharge chute when the snow blower is used in a confined area, such as next to a wall or fence. The standard handle is approximately 18 inches in length, while the optional handle is approximately 11 inches in length.

Cold Weather Cabs

It might be cold and windy outside, but you'll be more comfortable inside this semi-enclosed cold weather cab. This rugged enclosure helps protect you from the weather (and blowing snow!), so you can keep working.
